ACG Completes North Haven Pain Medicine Center

Bristol, CT – July 2007 – ACG completed interior renovations and new construction of the North Haven Pain Medicine Center at 58 Washington Avenue in North Haven, Connecticut.

ACG completed construction of the ambulatory surgery center for Titan Health Corporation of Sacramento, California. The \$1.7 million construction project included 7,000 square feet of medical space,

including an operating room, recovery room, treatment area and medical offices. Titan Health Corporation is a nationwide surgery center development, acquisition and management company.

ACG is a diversified construction services company providing general contracting, construction management and design-build services. Headquartered in Bristol, Connecticut, ACG provides renovation and new construction for medical, office, industrial and commercial buildings throughout Connecticut and the Northeast. ACG has constructed similar healthcare facilities for the Hospital of St. Raphael, Bristol Hospital, Danbury Hospital and private healthcare companies. ACG is located at 120 Halcyon Drive in Bristol, Connecticut.
